Industry Advisory Board – Mechanical Engineering Department 2023-2024

Government Engineering College, Modasa was established in 1984 under the Commissionerate of Technical Education, Gujarat State, Gandhinagar, in the North Gujarat region, with the objective of supporting and strengthening industrial development.

The college is affiliated with Gujarat Technological University and offers programs in seven engineering disciplines. The surrounding region includes industrially promising areas such as Aravalli, Panchmahal, Sabarkantha, Banaskantha, Mehsana, and Patan districts of Gujarat. The institution is also recognized by the All-India Council for Technical Education (AICTE), New Delhi.

In today's era of advanced technology and rapid industrial growth, it has become essential for academia to collaborate closely with industry. With this vision, we are pleased to announce the formation of the Industry Advisory Board (IAB) for the Mechanical Engineering Department. The IAB will provide guidance in areas such as laboratory enhancement, student training, industry internships, and related initiatives.
